Description: On certain passenger vehicles, the fuel pump retaining tabs holding the fuel lines were damaged during production.

Over time, this could cause the fuel lines to loosen from the pump resulting in fuel leakage. If an ignition source were present, the fuel may ignite resulting in a vehicle fire.

Remedy: Dealers will develop a securing bracket that will secure the fuel lines to the fuel pump even if the plastic retaining tabs should break. This service will be performed free of charge.

03/06/2006

Saab Cars North America

Manufacturer recall/service bulletin issued
Recall #15021
RECALL 15021-IDM

Locate an authorized [Saab Warranty Service Provider](#) to obtain more information about this recall

[- Learn more about this recall](#)

Description: Certain passenger vehicles equipped with B205/B235 4-cylinder gasoline engines and B308 6-cylinder gasoline engines may experience overheating and burnout of the isolated gated bipolar transistor (IGBT) within the ignition discharge module (IDM) due to increased susceptibility to electrical loads.

Overheating of the IGBT occurs most often at engine start-up, but it may also occur while the engine is running. Engine stalling may occur, which could result in a crash.

Remedy: Dealers will inspect to see what version IDM is in the vehicle and replace the IDM if it is a version built prior to the introduction of QP3. This service will be performed free of charge.

03/13/2006

General Motors

Manufacturer Safety recall issued
NHTSA# 05V399
Recall #15021

Glossary

[View Full Glossary](#)

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey,

Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
